Tutte le regioni sono disponibili in C4FM tramite DG-ID nel sistema [pYSF MultiStream](#). Alla connessione, se non configurato, hai il DG-ID 99 default;  
 Il transito tra il TG DMR e il modulo DSTAR è abilitato solo dove presente la transcodifica, come evidenziato nella dashboard [XLX039](#) con la presenza nella regione del TG-Modulo;  
 Il server [IPSC2 DIG-ITALIA](#) è dedicato esclusivamente al TG222 DMR+, Multi protocollo Nazionale TG2292 e Regionali 5 cifre;  
 Per un corretto transito nel network multi-protocollo, verifica se sei registrato nelle reti [DMR](#), [D-Star](#) e se la utilizzi, anche [NXDN](#).
